

info from Inosia
from Tapula
Nov 1974
also TAVUA Dec 5

note: this line seems to
be the Kopiti FOUNA & NGONO
of TAVUA talk in book 7 p. 53. VALO - TAPUCA
as in disc. from FOTO of TEPAPU

Acc. to Taula² Lipeka was
a descendant of the alfa (VETOLO),
and thus also related to the prior
alfas, MAANATU, father of VETOLO.
Exact link uncertain.

Another clue - TAMUNA has a
piece of land at Vikihi (the well in
Haama where Maanatu buried) which was
divided with Peta's ancestors - they are
also rel. to Maanatu. Today 1/2 the
land is with Maruise, 1/2 of Samu.

NOTE - Acc to Pelenia,
of Inosia, PAUKATEA
was prob. a desc. of MAEN
of 22/3. Link unsure,
poss. his frs MAEO.

NB this is one branch of
Kopiti Ha Tonga, which is said to
descend (via Sam) from Laukeva,
who stayed Tongan lands (Trans. Tale 194 p. 37)

Note: Teamo folow'd along with
Maaka's, Lemi of Hamamuu &
ca 1899 - reached Caroline Is
at least Maaka has desc. there.
Folow voluntarily as the 3rd in jail for adultery.
